

Robin Shukat

SENIOR FULL STACK WEB APPLICATION DEVELOPER

I am writing to express my interest in interviewing for the position of Web Developer. During my many years of experience as a full-stack Web Developer, I have developed both the functional and aesthetic components of client websites. I believe I can make an immediate impact on your organization with my unique blend of skills and passion.

My experience is an excellent fit for the list of requirements in this job:

- Deep knowledge of JavaScript, object-oriented patterns and related technologies such as DOM, XML, AJAX and HTML5 APIs.
- Deep knowledge of HTML5/CSS3, responsive design, cross-browser compatibility and performance optimisations.
- Expert knowledge of PHP in any frameworks, Python Django.
- Experience Knowledge of Node.js, event loop, asynchronous I/O, design patterns, debugging and operational concerns.
- Expertise in creating Web services/Integration based on PHP and Python frameworks and or any other 3rd party Integration tools.
- Deep working on large-scale single page application from designing high-level architecture through to implementation.
- Deep with HTTP, REST and SOA
- Experience with Monitoring tools and technologies.

Thank you for considering me to become a member of your team.

Sincerely,
Robin Shukat
